many disigners disconnect the middle peut in & yet

I always find it questionable in designs where other

currency symbols do not have such simplifications.

It is definitely not care to draw it with a middle

peut, but I'd rather suggest keepsly design in Cyrrencicy

considert.

Contrast Foundry | Cyrillicsly 05/16/20

The mash difference between yet and semi-soft Contrast Foundry | Cyrillicsly sign is the importance of the top stroke. In yet it is as important as the top of the T while in semifort it is just a crossline. (1) try to keep tress more preportional top

БББСТБ

puis part usually gets
to heavy when the oral
is squithed. Fo it will
most likely need to be
adjusted.

Contrast Foundry | Cyrillicsly 05/16/20

finisherly to the lowercase on p, 17
6) more prominent hericontal stroke in Yat
(+ better balance between top / bottom counter mapes)
(2) pimilarly to other cross bars (7, H, etc.), a bit lighter

(1) descenders in these characters always appear very
disproportion to my eye when they are aligned to
descenders. When it happens so I know even in
furtham to the spikes (4). As fair as I know even in
furtham to they do offen make the descending element they forser.
